

Old Town High School Honors Diploma Program Seminar Reflection Papers

Submission Process beginning September 2009

Our goals: We seek to improve both our record-keeping process and the quality of students' reflection writings. The purpose of writing reflection papers following Honors Diploma seminars is to do more mental work with the ideas from the seminar, to make connections between the seminar material and other experiences/interests, and to prompt conversations between you, your peers, and your mentor regarding the seminars.

New option! If you'd like, you may choose to form your paper as a detailed, reflective thank-you note to the seminar presenter. For seminars we arrange, we will deliver your note to the presenter.
